**BioMedix™ Partners with Collaborative Practice Solutions, LLC to
Enhance TRAKnet™ PM EHR Adoption for Physicians**

DPM EDITION

ST. PAUL, MN — March 24, 2011 — BioMedix™, a leader in providing integrated medical diagnostic hardware, Health Information Technology (HIT) software and web-based solutions, recently announced the addition of Collaborative Practice Solutions, LLC (CPS) services to TRAKnet™ PM – DPM Edition, the all-in-one Electronic Health Record (EHR) and practice management solution for Podiatric physicians. The valuable services provided by CPS are designed specifically to support Podiatric offices as they adopt TRAKnet™ PM technology.

TRAKnet™ PM – DPM Edition is a fully ONC-ATCB Certified EHR* that helps make Podiatric practices eligible to capitalize on government incentives to adopt and demonstrate meaningful use of certified EHR technology, while streamlining patient care. The Collaborative Practice Solutions, LLC (CPS) team brings an even greater level of service to the implementation and training process already included in TRAKnet™ PM – DPM Edition solution purchases.

“BioMedix™ is committed to providing products and services that enable physician offices to meet regulatory demands while improving patient care,” said John Romans, President & CEO of BioMedix™, “Bringing together CPS and TRAKnet™ PM will provide added value and support for clients throughout the EHR adoption process, streamlining the management of health information and maximizing time spent with patients.”

Lead by respected Podiatric physician, speaker and author John Guiliana, DPM, MS, and a team of physicians and administrators, CPS will help offices make the transition to TRAKnet™ PM – DPM Edition as smooth as possible. Services provided by CPS include an analysis of practice workflow to provide comprehensive guidance designed to streamline the technology’s implementation and training for an easier transition.

“As experienced physicians and administrators, we at CPS understand the common obstacles that can occur with the implementation of new technology,” said John Guiliana, DPM. “CPS is proud to partner with BioMedix™ by providing dedicated services for Podiatry offices making the imperative transition to EHR.”

About BioMedix™

BioMedix™ provides the only integrated suite of hardware, software and online services designed to cost-effectively detect Peripheral Artery Disease (P.A.D.) and Chronic Venous Insufficiency (CVI). Vascular specialists, primary care providers, hospitals and health systems use our products to identify these patients. Our devices, Health Information Technology (HIT) software, Electronic Health Records (EHR) and advanced practice management and web-based solutions reduce mistakes, provide data for sound analysis, build practice revenue and streamline reimbursement while providing a platform that supports the continuum of care and increased quality outcomes. For more information about BioMedix™ products, call 877-854-0014 or log on to www.BioMedix.com.

TRAKnet™ is a trademark of BioMedix™ | *Vendor Name: BioMedix Date Certified: 10/28/2010 Product Version: TRAKnet Practice Management Software 2.0
